**How do we help?**
Kinship Navigators provide Consent for Health Care Affidavits for the families and assist in accessing the following:
- Financial supports designated for Kinship Families,
- Medical Assistance for the children,
- School enrollment, and
- Any other resources that may be needed for the children, including legal resources and mental health resources.

Your System of Care

Baltimore County Family and Kinship Navigators can help you identify your System of Care (SOC): a network of government and private agencies that work as a team with you and your family.

Depending on your child's needs and your family's situation, help may be available from schools, health clinics, hospitals, health insurance providers, community mental health centers, training programs, social service programs or the courts.

Family and Kinship Navigators help families and individuals identify strengths and needs. You'll be provided guidance when completing forms and applications and assistance in exploring advocacy strategies that address school and service issues.
